Modelled allocation fractions for volume group 1 with par 3

Group 1 : Volume = c(5, 10) L
Chain length = 10000
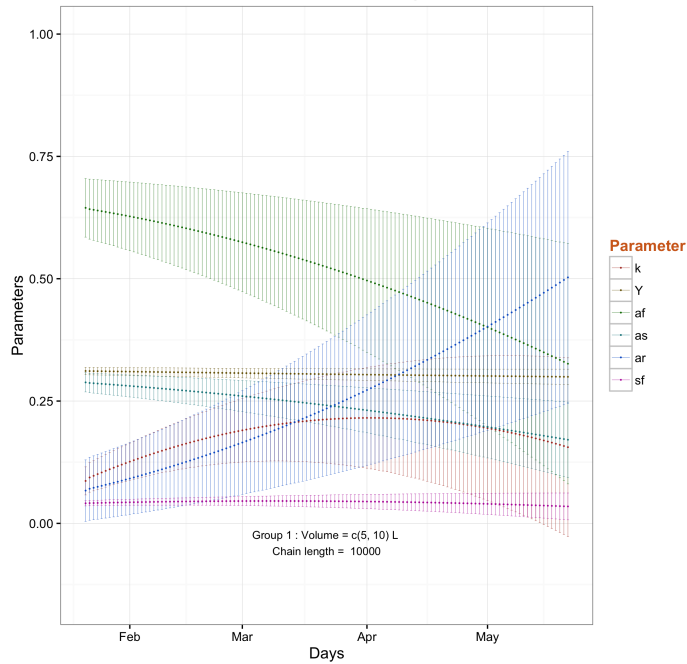

Modelled allocation fractions for volume group 2 with par 3

Group 2 : Volume = c(15, 20, 25, 35) L
Chain length = 10000
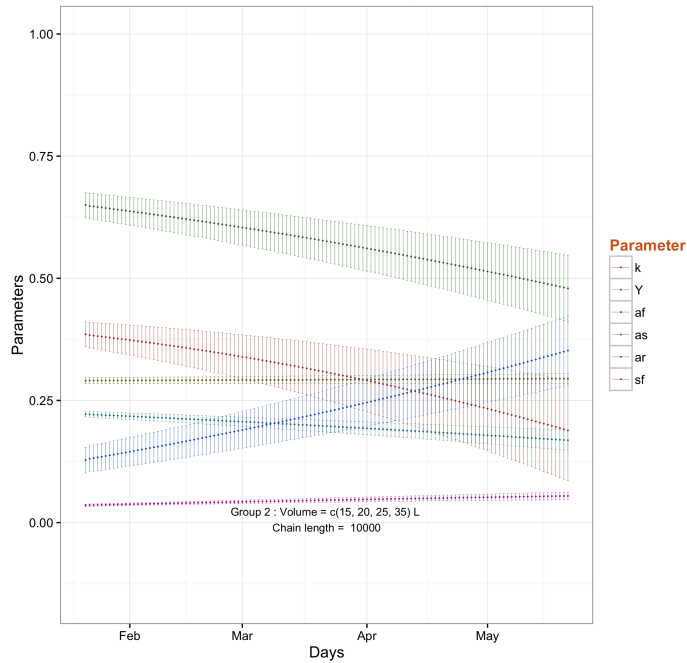

Modelled allocation fractions for volume group 3 with par 3

Group 3 : Volume = 1000 L
Chain length = 10000
